THE DAILY BULLETIN.

JUDGE COOLEY'S PAPER.

Readers of the BULLETIN are to-day presented with the full text of Judge Thomas M. Cooley's paper in the Forum for June—"Grave Obstacles to Hawaiian Annexation." It is printed in a supplement to this issue, and every subscriber and buyer of the paper should be sure he gets it. Judge Cooley reasons the matter out on the basis of United States constitutional law, on which he is universally admitted to be an eminent authority. His conclusion is in effect that the founders of the American Union never contemplated an empire for wealth, glory, or any sort of imperial aggrandizement, but rather a commonwealth of contiguous states inhabited by a homogeneous people for their mutual protection and material benefit. It was, in short, the "United States of America" they established, which does not include distant islands of either the Atlantic or the Pacific. As a nation, of course, it is competent for the people of the United States to amend their constitution, so as to permit them to become a colonizing power and an imperial republic. Such a new departure would, however, be a matter of so momentous gravity that we cannot conceive of that conservative nation making it in haste. What interests us here in the meantime is the fact that the annexation of these islands to the United States is declared by one of the most eminent of American jurists to be repugnant to the Constitution of the United States as it stands. An opinion so strongly presented from such a source is enough to forbid all thought of the consummation of the annexation scheme by a majority of the United States Congress. Annexation is killed in the United States. In this case it now behooves the Provisional Government of Hawaii to take the first steps toward abolishing the oligarchic system it represents, and have submitted to the whole people of the islands the question of the form of permanent government to be established in its stead. As the Provisional Government was established professedly with annexation as its single goal, it now that annexation is seen to be hopeless can gracefully use the machinery of power to admit the people again to the control of the nation's destinies. Better that it should do so voluntarily than that by unwise persistency in "provisional" rule it should compel the United States to act on the responsibility that belongs to that nation from having lent its forces to the overthrow of Hawaii's original government and constitution.

Annexation in Kau.

An annexation luau was held at Waiohinu, Hawaii, the evening of June 9. It gained very few native signatures to the annexation roll. There was an anti-annexation meeting held at Waiohinu the same night, at which Mr. John T. Baker of Hilo was present. A private letter, from which the foregoing meagre particulars are taken, says: "The annexationists have tried to gain over John Kapahu and claim that he promised to sign, but he has not done so up to the present. What an acquisition he would be!"

The Hawaiian Ship John Ena.

The fine Hawaiian steel ship John Ena, Schnauer master, arrived off port to-day from San Francisco. The ship touched here to register under the Hawaiian flag, having previously only been sailing under a Consul's permit. As soon as she registers she will leave for Port Pirie, Australia, to load coal for this port. A description of the fine ship was given in the BULLETIN some months ago.

"August Flower"

"I inherit some tendency to Dyspepsia from my mother. I suffered two years in this way; consulted a number of doctors. They did me no good. I then used Relieved in your August Flower and it was just two days when I felt great relief. I soon got so that I could sleep and eat, and I felt that I was well. That was three years ago, and I am still first class. I am never Two Days. Without a bottle, and if I feel constipated the least particle a dose or two of August Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system. Constipation While I was sick I felt everything it seemed to me a man could feel. I was of all men most miserable. I can say, in conclusion, that I believe August Flower will cure anyone of indigestion, if taken Life of Misery with judgment. A. M. Weed, 229 Bellefontaine St., Indianapolis, Ind."

Saturday, June 17, 1893.

The curbstone ordinance now being enforced means hardship to the property owners and activity in bolts and lumber by the merchants who deal in those articles. It's a hardship only on owners who declined to have the curbs set when the road board force was doing the work and to those whose property was not on the line of past improvements. People have the choice of three lumber dealers and the price of material is the same, but with Bolts, and you'll need a lot of them, we have the stock, and prices are in conformity with the times. If the supervisor calls on you to put a curbing in front of your property come to us for your bolts, and you will want to paint the lumber with Carbolineum, so you'd better get that here at the same time.

The Crank Lantern advertised by us a week ago seems to have caught the idea of the people who like to handle a lantern without risk of burning their fingers. This article seems to fill a long felt want and the demand for it seems to be growing daily. We have them in copper as well as tin.

Three Fischer Steel Ranges went last week into the homes of people who enjoy good cooking but who couldn't get it out of the old stove. The fact that the material of which these ranges are made is just twice the thickness that the first lot was made of puts them in the top rank of the stove maker's achievements. The only fault ever found with this range was in the thickness of the steel; now that this has been remedied the Fischer Range is pronounced the only perfect one on the market. The hot water coils being in the fire box it takes but a few minutes of the plumber's time to make connection so that you may have hot water in the bath and kitchen.

The demands upon us for Wire by plantation men has been so great lately that by the time the steamer reached here we were short of it. With what we received on the "Australia" we can supply any ordinary demand and our arrangement with the manufacturers in the United States and Europe puts us in a position to practically control the wire trade in this market. We have also added largely to our stock of Barbed Wire and can fill orders to any quantity.

If you contemplate improving your property by the addition of a little paint we would be pleased to contribute to your bank account by selling you Paints, we mean by this that by purchasing from us you save money and everything saved should go into the bank. We can also supply you with the necessary Oils, Varnishes and Brushes to finish the job.

Everyone knows how we stand on the plow question; they know that such a good plow as the Hendry Breaker has never been introduced on these islands. We told you last week that it is being used on twenty-one different plantations on the islands, since then another one has come into the fold. We have also a small Double Furrow Plow that is gradually growing in favor with plantation managers. Our Rice Plows are unexcelled.
